

Attention Property Owner: A land use proposal has been submitted for property near where you live or near property you own elsewhere. State law requires that the county notify property owners within a certain distance from this property. The proposal and address of the property is described in the "Application" section below. The decision in this case does not directly affect the zoning or use of your property. If you object to the decision, refer to the "Appeal" section. If you have questions, contact the staff person listed at the end of this report.

**NOTICE OF DECISION
VARIANCE CASE NO. 17-009**

APPLICATION: Application of Marvin and Barbara Hawes for a variance to reduce the required 20 foot minimum front yard setback to 10 feet on a 0.43 acre parcel in an AR (Acreage Residential) zone located at 8511 Elkhorn Drive SE, Lyons (T8S; R4E; Section 32BC; Tax lot 2000).

DECISION: The Planning Director for Marion County has **APPROVED** the above-described Variance application subject to certain conditions.

EXPIRATION: This Variance is valid only when exercised by **January 19, 2020**. The effective period may be extended for an additional year subject to approval of an extension (form available from the Planning Division).

Additional extensions may not be granted if the regulations under which this decision was granted have changed since the original approval.

WARNING: A decision approving the proposal is for land use purposes only. Due to septic, well, and drain field replacement areas, this parcel may not be able to support the proposal. To be sure the subject property can accommodate the proposal the applicant should contact the Building Inspection Division, (503) 588-5147.

This decision does not include approval of a building permit.

CONDITIONS: The following conditions must be met before a building permit can be obtained or the approved use established:

1. The detached garage shall maintain a 10 foot minimum setback from the right-of-way line of Elkhorn Dr SE.
2. The applicant shall obtain all permits required by the Marion County Building Inspection Division.
3. The development shall significantly conform to the site plan submitted with the proposal. Minor variations are permitted upon review and approval by the Planning Director.

OTHER PERMITS, FEES, AND RESTRICTIONS: This approval does not remove or affect covenants or restrictions imposed on the subject property by deed or other instrument. The proposed use may require permits and/or fees from other local, State or Federal agencies. This decision does not take the place of, or relieve the responsibility for, obtaining other permits or satisfying restrictions or conditions

APPEAL PROCEDURE: The Marion County Zone Code provides that certain applications be considered first by the County Planning Director. If there is any doubt that the application conforms with adopted land use policies and regulations the Director must deny the application. Anyone who disagrees with the Director's decision may appeal the decision to a Marion County hearings officer. The applicant may also request reconsideration (one time only and a fee of \$200.00) on the basis of new information subject to signing an extension of the 150 day time limit for review of zoning applications.

A public hearing is held on appeals subject to the appellant paying a \$250.00 fee. Appeals must be in writing (form available from the Planning Division) and received in the Marion County Planning Division, 5155 Silverton Rd. NE, Salem, by 5:00 p.m. on **January 19, 2018**. If you have questions about this decision contact the Planning Division at (503) 588-5038 or at the office. This decision is effective **January 20, 2018** unless appealed.

FINDINGS AND CONCLUSIONS: Findings and conclusions on which the decision was based are noted below.

1. The property is designated Rural Residential in the Marion County Comprehensive Plan and zoned AR (Acreage Residential).
2. The property is located on the south side of Elkhorn Dr SE in the 8500 block. The subject parcel is currently developed with a dwelling, accessory structure, well and septic system.
3. Surrounding properties in all directions are zoned AR and consist of residential uses.
4. The applicant is proposing to reduce the required 20 foot front yard setback for the garage to 10 feet.
5. Public Works Land Development and Engineering Permits commented on requirements that are not part of the land use decision and available for review in the planning file.

All other contacted agencies either failed to comment or stated no objection to proposal.

6. In order to obtain a variance the proposal must meet the criteria in found in Section 17.122.020 of the Marion County Code (MCC). These criteria are:
 - (a) *There are unnecessary, unreasonable hardships or practical difficulties which can be relieved only by modifying the literal requirements of the ordinance; and*
 - (b) *There are unusual circumstances or conditions applying to the land, buildings, or use referred to in the application, which circumstances or conditions do not apply generally to land, buildings, or uses in the same zone; however, nonconforming land uses or structures in the vicinity or violations of land use regulations or standards on the subject property shall not in themselves constitute such circumstances or conditions; and*
 - (c) *The degree of variance from the standard is the minimum necessary to permit development of the property for the proposed use; and*
 - (d) *The variance will not have a significant adverse affect on property or improvements in the neighborhood of the subject property; and*
 - (e) *The variance will not have a significant adverse affect upon the health or safety of persons working or residing in the vicinity; and*
 - (f) *The variance will maintain the intent and purpose of the provision being varied.*
7. The applicants are proposing to construct a single car garage on the northeast corner of the property. The subject parcel is small, at 0.43 acres in size, with a maximum width of 90 feet. The property is bordered by the North Fork River to the south. Due to the location of the septic system in the front and side yard, the applicants are requesting the setback for the garage be reduced to a 10 foot setback from the front property line. The garage will not create noise, odor or vibrations that would impact surrounding properties and would have no impact on health or safety of persons working or residing in the vicinity. The proposal meets the criteria in Finding #6.
8. Based on the above findings, the applicants' request meets all applicable criteria for a variance and is, therefore, **APPROVED**, subject to conditions.

Joe Fennimore
Director-Planning Division
