- The projected annual cost would be approximately \$10,000 and is already in the ESSD funds.

## ACTION

### **Consider an order adopting the Marion County Emergency Operations Plan**

- Brian Nicholas, Kathleen Silva

#### ***Summary of presentation:***

- The document before the board today has been in the works since 2016;
- The county is not in compliance at this time;
- To be eligible for federal aid, it is important to have an adopted plan to meet grant and National Incident Management System (NIMS) requirements;
- The county needs to show Oregon Emergency Management (OEM) and the Federal Emergency Management Agency (FEMA) that they are in compliance;
- Oregon Emergency Management (OEM) is in the process of updating their emergency support functions:
  - These updates will be incorporated into the county's plan.
- Ms. Silva would also like to include an annex into the plan to include recovery; and
- There needs to be clarity around basic plan outlines:
  - When to activate the plan;
  - When the policy group should meet; and
  - Those to include in a new group with department heads.

#### ***Board discussion:***

- Known future changes to the plan can be adopted in the two year cycle;
- Need to adopt the EOP with corrected contact information;
- Substantial changes to the plan would be brought before the board for ratification; and
- The first option should be that the board makes decisions as a governing body:
  - If all three commissioners are not available, the EOP would dictate a plan.

**MOTION:** Commissioner Brentano moved to adopt the 2020-2024 Marion County Emergency Operations Plan, with the corrected contact information. Seconded by Commissioner Cameron; motion carried. A voice vote was unanimous.
