PROJECT: RFP for SAFETY CONSULTANT

Proposals due by: 3:30 p.m. on 13-Jul-2021

Questions due by: 5:00 p.m. on 30-Jun-2021

Addenda cutoff date & time: 2:00 p.m. on 09-Jul-2021

<u>Date</u>	<u>Question(s)</u>	<u>Response(s)</u>	<u>Respondent &amp; Date</u>	<u>Addendum Req'd?</u>
29-Jun-2021	Pages 4 and 5 of the above-noted RFP list 24 topics for regulatory compliance programs and training sessions to be developed or revised. There are a 3 items noted as “(mostly complete)”, indicating a written program or partial program exists for those topics. Does the County currently have any developed programs/policies written for the other 21 topics, or is the County asking for the initial development of each of those topics?	We are looking for both initial documents and revision of current documents. Topics with mostly complete does indicate a program or training has been started. All other items do not have substantial work completed.	Tim B. 02-Mar-2021	No
29-Jun-2021	does “Hazardous Material Response” listed on p.5 refer to HAZWOPER (County Employee expected to do full containment and cleanup) or Basic Spill Response (worker does some initial containment but external contractor would perform greater response and cleanup)?	Hazardous material response may be full containment and clean-up or isolation and a call to a contractor. This response is based on multiple factors that includes but is not limited to the quantity of material, substance, location of material and possible environmental contamination.	Tim B. 10-Mar-2021	Yes
29-Jun-2021	For the training topics listed on pages 4 and 5, many of the topics require an awareness level of training (length of training approx. 1-2 hours). Topics such as Ferry Operations, Driving/Equipment Operations, Roadwork/Paving Operations and Hazardous Material Response Training require additional training of 8 hours or more. Is the County looking for awareness level type training for these topics as well? This would provide an overview of the topics and regulations but not any certification that may be needed such as HAZWOPER Refresher or Asphalt Paver. For cost estimating purposes, would you like proposers to use an awareness level of training for designing each presentation?	Training level requirements will differ for employees. This may include awareness, operational, technician and competent or qualified person level training. Some topics may require one level of training for all employees while other topic may require multiple levels.	Tim B. 18-Mar-2021	No
