

Vaccination Status for Marion County

Data from the ALERT IIS as of May 23, 2021

The data in this report comes from the ALERT Immunization Information System (ALERT IIS), which is the immunization registry for the State of Oregon. The data includes *only* those people who are residents of Marion County, and not all vaccinations that take place within the county. Population estimates for the county are from PSU Population Research Center; those for demographic characteristics are obtained from the US Census American Community Survey (ACS) 2019 5-year estimates.

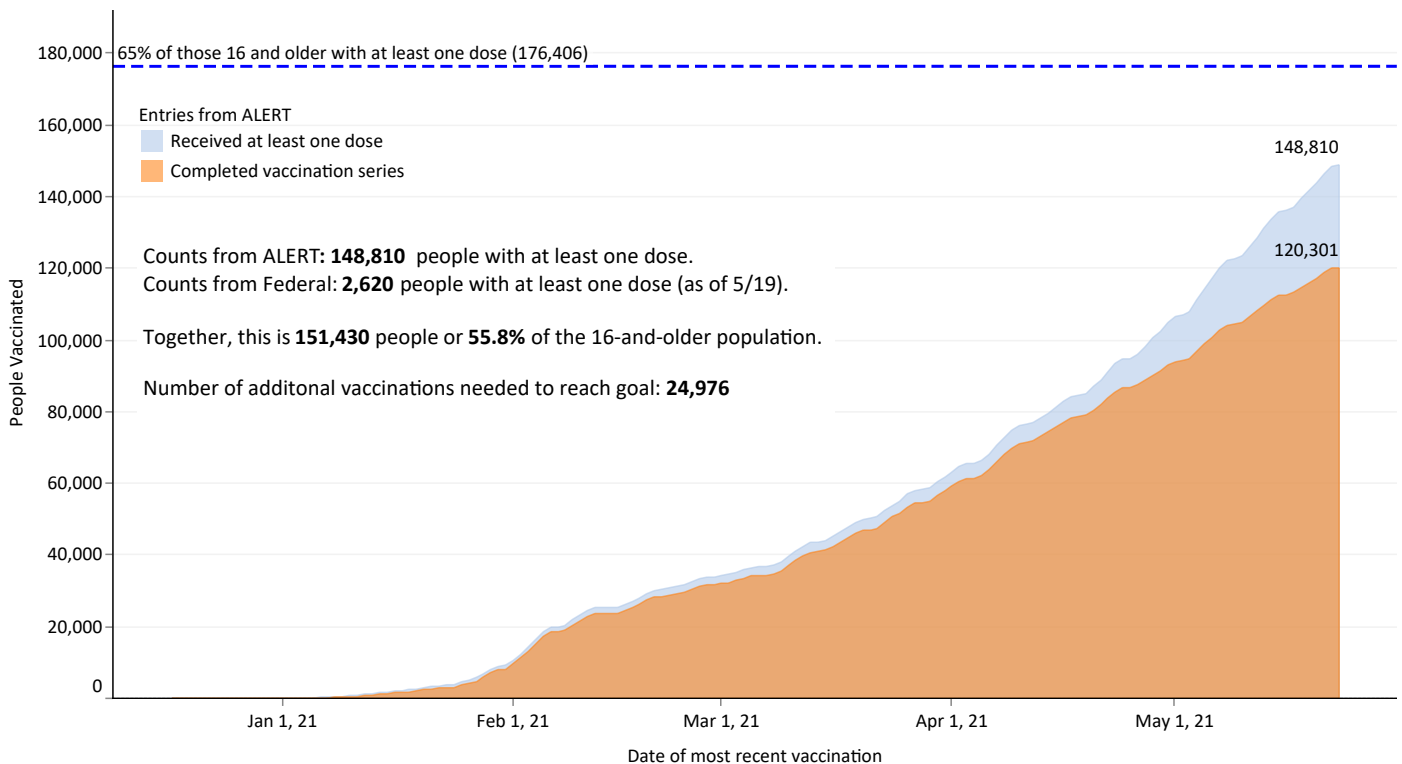

The table below displays the current and monthly level of dose administration to all eligible people. The chart displays the County's progress towards its vaccination goal of a minimum of 65% of the population 16 and older having received at least one dose of a vaccine. As of May 25, the chart text includes counts for those 16 and older immunized by Federal agencies.

Note that the number of people with an incomplete vaccination status is transitory, as those people will move into the Completed Series category as they become eligible for, and received, their second dose. The number of those fully vaccinated, defined as persons who are 14 or more days out from completing their vaccination series, will increase daily.

Vaccination Status (all eligible people)

		Doses Administered	People Vaccinated	% People with at least one dose	Vaccination series is incomplete	% Vaccination series incomplete	Vaccination series is complete	% Completed vaccination series	People fully vaccinated	% Fully vaccinated
2020	Dec	4,366	4,365	1.3%	4,364	1.3%	1	0.0%	1	0.0%
	Jan	36,558	32,567	9.3%	24,419	7.0%	8,148	2.3%	8,148	2.3%
	Feb	43,054	42,262	12.1%	18,608	5.3%	23,654	6.8%	23,654	6.8%
2021	Mar	57,997	51,901	14.9%	25,760	7.4%	26,141	7.5%	26,141	7.5%
	Apr	73,344	66,540	19.1%	31,607	9.1%	34,933	10.0%	34,933	10.0%
	May	47,876	46,565	13.3%	19,135	5.5%	27,430	7.9%	13,618	3.9%
Totals as of 5/23		263,195	151,365	43.4%	31,058	8.9%	120,307	34.5%	106,495	30.5%
Fully vac. as of 5/25										

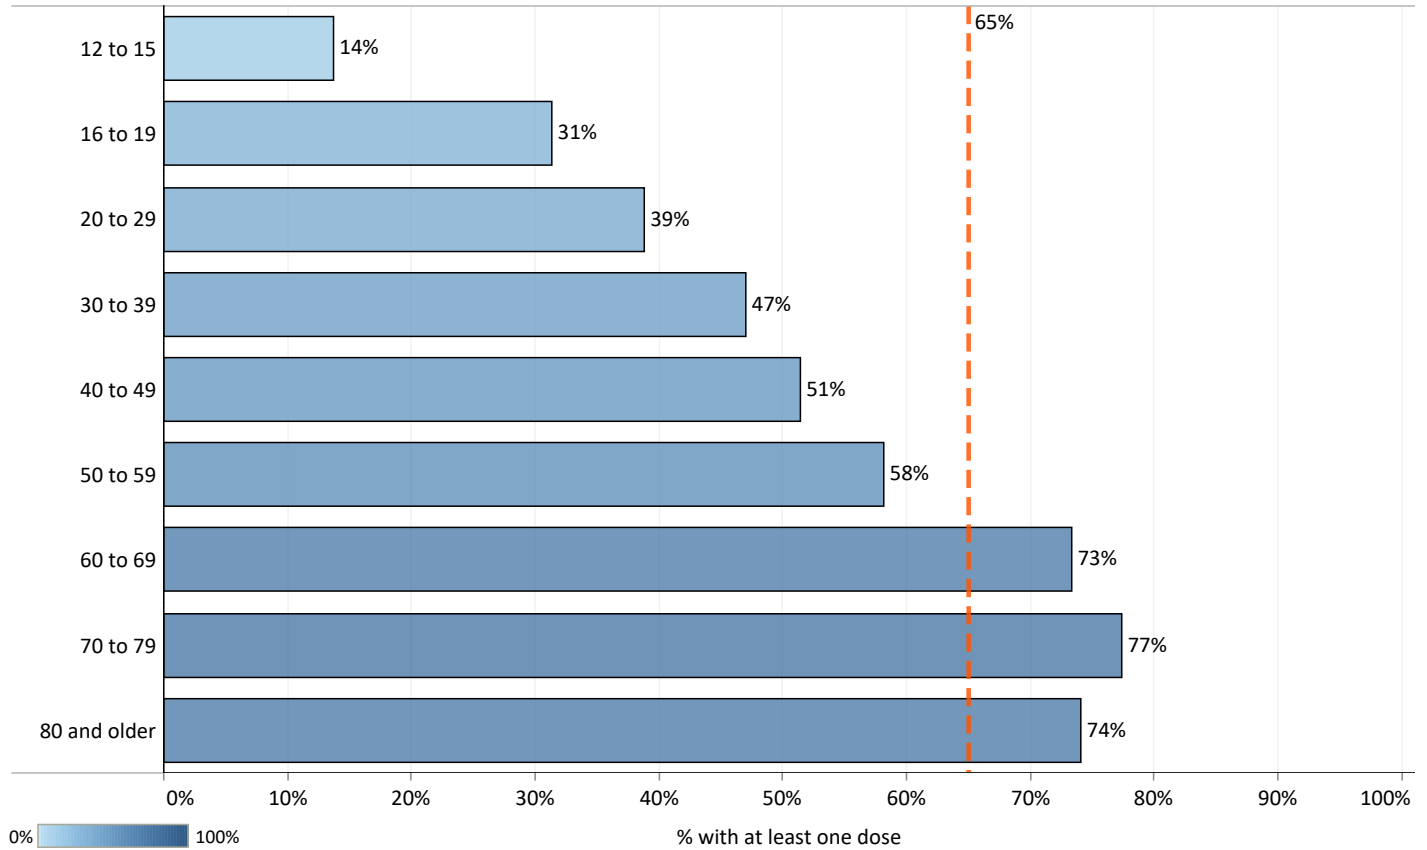

Progress Towards Vaccination Goal (for population 16 and older)

Vaccination Levels by Age Group

The chart and table below display the percent in each age group that have received at least one dose of vaccine, and the vaccination counts by age groups for Marion County. The population for each age-group is estimated using the ACS 2019 5-year estimate.

Percent with at least one dose

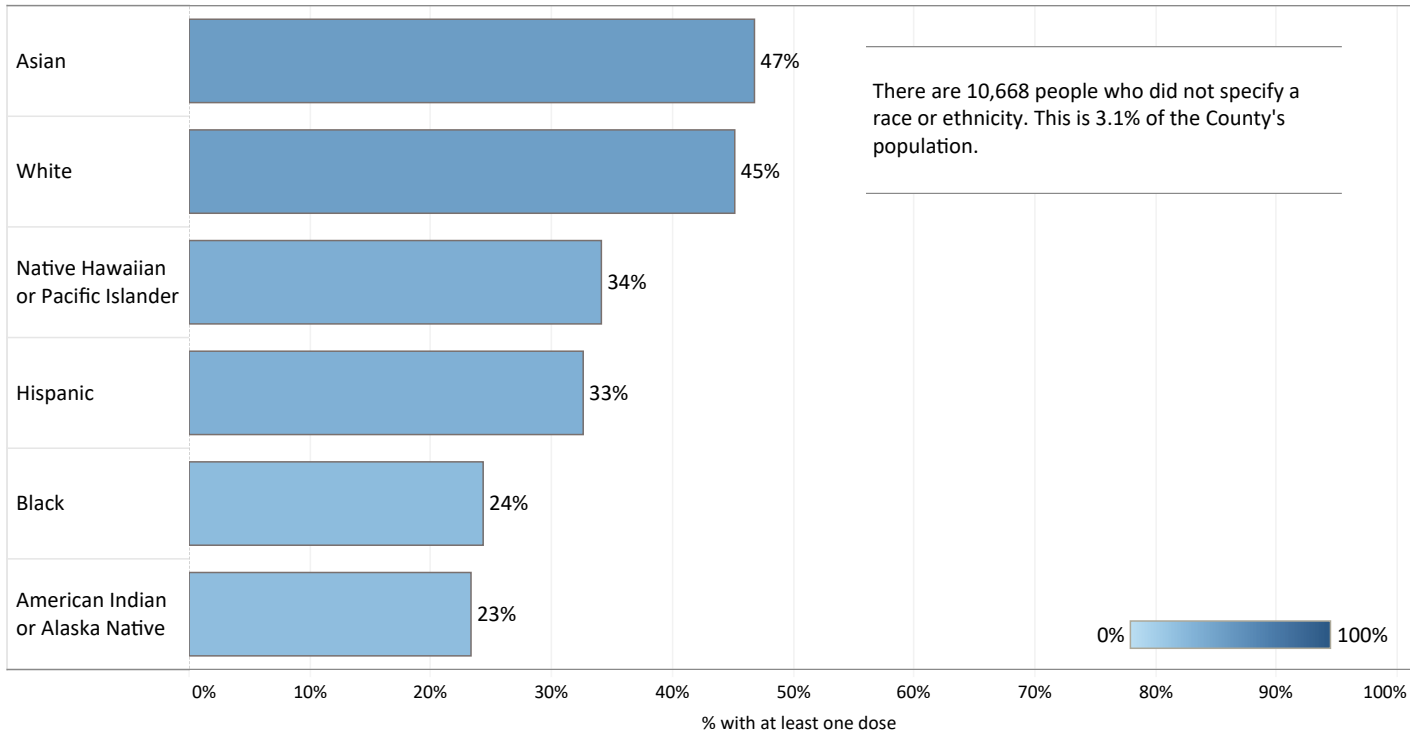

Vaccination Status by Age Group

Age Group	Doses Administered	People with at least one dose	People with completed vaccinations	Rate (per 100,000) at least one vaccine	Rate (per 100,000) completed vaccine series
12 to 15	2,555	2,555	6	13,723	32
16 to 19	9,372	6,053	3,507	31,369	18,175
20 to 29	29,729	18,097	12,689	38,777	27,189
30 to 39	35,808	21,189	16,015	47,063	35,571
40 to 49	37,678	22,204	17,197	51,430	39,833
50 to 59	41,039	23,817	18,997	58,187	46,411
60 to 69	49,616	27,492	23,858	73,392	63,691
70 to 79	37,908	20,289	18,557	77,330	70,728
80 and older	19,490	10,417	9,481	74,037	67,385

Vaccination Levels by Race/Ethnicity

The chart and table below display the percent in each racial/ethnic group that have received at least one dose of vaccine, and the vaccination counts for each subpopulation in Marion County. For the percentage calculation, numerators are computed using rarer race methodology, where people are assigned into a race/ethnicity category based on rarity in the population. For Marion County, the rarest to most common race categories are: Native Hawaiian or Pacific Islander, Black, Asian, American Indian/Alaskan Native, Hispanic, and White. The denominators are taken directly from the Oregon Health Authority.

Percent with at least one dose (for each subpopulation, all ages)

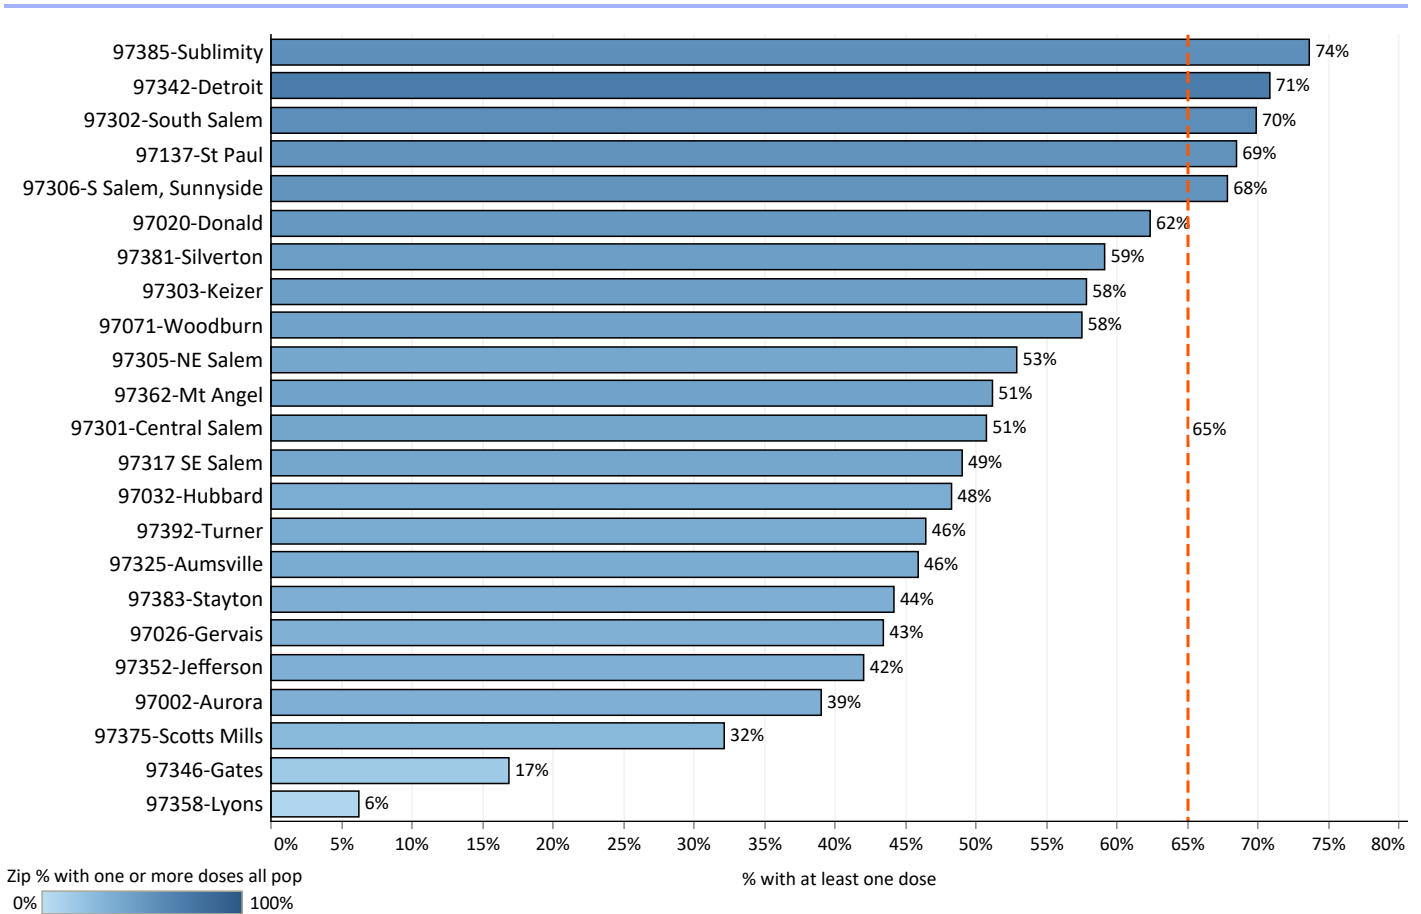

Vaccination Status by Race/Ethnicity

Race/Ethnicity	Doses Administered	People with at least one dose	People with Vaccination Series Incomplete	People with completed vaccinations	People Fully Vaccinated
American Indian or Alaska Native	6,588	4,019	1,206	2,813	2,404
Asian	7,998	4,578	944	3,634	3,156
Black	2,928	1,769	501	1,268	1,095
Hispanic	43,049	26,556	7,451	19,105	15,507
Native Hawaiian or Pacific Islander	2,838	1,701	443	1,258	1,096
White	182,524	103,031	18,324	84,707	76,671
Unknown	17,270	10,668	3,146	7,522	6,566

Zip Code Area

The chart and table below display the current vaccination status in by zip code area, with the percent by zip code showing the percentage of all people who have received at least one does of vaccine. The population in each zip code tabulation area is approximated using the ACS 2019 5-year estimate for ZCTA. Please note that several of the zip codes extend past the county line and so include non-county residence in the count. These areas do not include large concentrations of population, so the estimates should be reasonably accurate as well as conservative.

	Doses Administered	People Vaccinated	Vaccination series is incomplete	Vaccination Series Completed	Fully Vaccinated
97002-Aurora	3,826	2,223	445	1,778	1,548

Vaccine Providers

Listed below are the top 10 vaccine providers in the county, along with information on the type and distribution of doses for the three vaccines. Medical system providers, and particularly Salem Health, which operates the mass vaccination site at the State Fairgrounds, are the primary providers of vaccinations for Marion County. As vaccination rates at the sites have slowed, and supplies of vaccine to smaller providers has increase, these sites are slated to close by early July.
