EARLY CHILDHOOD NURSING

ABOUT EARLY CHILDHOOD NURSING

Our ECN program provides home visiting services to pregnant women and children (ages 0-21) who meet eligibility guidelines. The service is offered at no cost to families.

ECN nurses can help answer your health questions, teach you how to understand and care for your child, and show you how to encourage and support your child's growth and development.

We can also assist with referrals to community resources to help meet your family goals.

You and your nurse work together to make a plan for home visiting services that best fit your schedule and needs.

The program is voluntary and available to families residing in Marion County.

Our staff can provide bilingual service in Spanish and arrange for interpretation in other languages.

REFERRAL PROCESS

We accept referrals via phone, fax, or mail. Referral forms can be found on our website at ECN.MCHEALTHY.NET.

ECN SERVICES

- Education about pregnancy, safety, parenting, nutrition, and child development
- Medical guidance on accessing the healthcare system and understanding health conditions
- Finding and using local resources like WIC, immunizations, health care, insurance assistance, DHS services such as Self-Sufficiency and Developmental Disabilities, and more
- Screenings and assessments for pregnant/postpartum women and children
