

**Material List:**

- Scissors
- Colored Pencils , crayons, or markers
- Tape

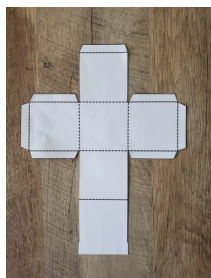

## POSITIVITY CUBE INSTRUCTIONS WITH PICTURES

**Step 1:** At the bottom of the cube template, where the two lines are not connected, draw a straight solid line to connect the two lines

**Step 2:** Using scissors, cut the cube template out along the solid lines, including the line drawn in step 1

**Step 3:** Once the template is cut out, fold at the dotted lines

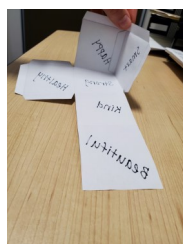

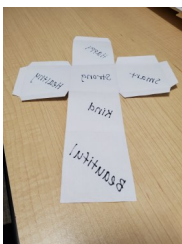

**Step 4:** On one side of the template, write a positive word in each box. A different word should be used in

**Step 5:** Decorate all your squares using colors or pictures.

**Step 6:** With the decoration side face down, fold two squares up at the dotted line. The squares should be next to each other in order to connect the square edges using a small piece of tape.

**Step 7:** Next fold up another square and connect it to the other taped squares.

**Step 8:** Continue this process until a positivity cube is made.
