Step 1: Use the chart to the left to find your monthly rate based on your (and your spouse's) age as of your effective date.

Step 2: Multiply this rate by your desired coverage amount, in units.

For example: \$150,000 of coverage is 150 units.

For an employee who is 30 year old, and a non-smoker, you would calculate as follows: $150 \times .151 = \$22.65$ per month

Benefit reduction schedule: If you are still employed, your benefits and your spouse's benefits will reduce to 65% at age 70 and 50% at age 75. Your premiums will also reduce to match your benefits. Spouse reductions are based on spouse age.

What benefits are offered as part of my coverage?
