Silverton Road Bridge Replacement Project Upcoming Construction

SALEM, OR – Marion County has received federal funds to replace the Silverton Road Bridge over the Little Pudding River. The project is located on Silverton Road between 60th Avenue and 64th Place. The County has awarded the contract for construction to Farline Bridge, Inc., of Stayton Oregon and construction is scheduled to begin this spring. The contractor's closure schedule will be released when it becomes available.

During construction, Silverton Road will be closed to through traffic between 60th Avenue and 64th Place. The closure will start this spring and will end by Thanksgiving 2021. While Silverton Road is closed, two well-marked detour routes will be in place.

Closing Silverton Road during construction ensures that all of the in-water work can occur within the Oregon Department of Fish and Wildlife's designated in-water work window for the Little Pudding River in one construction season. Silverton Road will be reopened prior to the start of the holiday shopping season, a commitment made by Marion County to the Silverton business community.

If you have questions or concerns regarding this notice or the project in general, please visit the project website at <https://www.co.marion.or.us/PW/Engineering/Projects/Pages/SilvRdBridge.aspx> or contact Jill Ogden, Senior Engineering Technician, at (503)588-5036 or by email at jogden@co.marion.or.us.
