## ELEVATION / FLOODPROOFING CERTIFICATION

CP \$ 86-18

INSTRUCTIONS: As a condition of approval for a Flood Plain Development Permit a certification of structure elevation or floodproofing may be required (Section 178.060 of the Marion County Zoning Ordinance). Section 1 of this form is for the purpose of certifying that a structure has been constructed so that the lowest floor is at an elevation of one (1) or more feet above the 100 year flood level. The certification must be completed by a registered land surveyor or civil engineer.

Section 2 is used to certify that a structure has been adequately floodproofed. It must be completed by a registered civil/structural engineer.

	Please complete the applicable section and form to the County Planning Department at 2	
	SECTION 1	24495
	I certify that the structure located at (ac	dress) CLAS BUTTEVILLE RIDING
	HUTTHE OF is	constructed so that the lowest floor
	is at an elevation of feet NGV	D (mean sea level).
	SECTION 2	
	I certify that the structure located at (ad	dress) 24495 BUTTEVILLE FOUTE
	, together with the proposed utility and sanitary facilities, are designed so that the structure will be watertight to an elevation of	
	My certification is conditional upon the actual construction of the building in strict accordance with the plans presented to me.	
	In the event of flooding, will this degree of floodproofing be achieved with human intervention? $N \cdot A$ (see Note)	
	Will the structure be occupied as a residence? $N.A$ .	
,	structure when floods up to the b	ion means that water will enter the ase flood level occur, unless measures revent entry of water (e.g., bolting ows).
