

Attention Property Owner: A land use proposal has been submitted for property near where you live or property you own elsewhere. State law requires that the county notify property owners within a certain distance from this property. The proposal and address of the property is described in the "Application" section below. The decision in this case does not directly affect the zoning or use of your property. If you object to the decision, refer to the "Appeal" section. If you have questions, contact the staff person listed at the end of this report.

**NOTICE OF DECISION
PARTITION CASE NO. 19-006**

APPLICATION: Application of Viktor Sakaly to divide a 5.46 acre parcel into two parcels of 2.00 acres and 3.46 acres in an AR (Acreage Residential) zone located at 8232 Squirrel Hill Road SE, Salem (T8S; R3W; Section 35A; tax lot 200).

DECISION: The Planning Director for Marion County has **APPROVED** the above-described Partition application subject to certain conditions.

EXPIRATION DATE: This approval is valid only when the final partition plat is recorded by **July 26, 2021**. The effective period may be extended for an additional year subject to approval of an extension (form available from the Planning Division). **Additional extensions may not be granted if the regulations under which this decision was granted have changed since the original approval.**

WARNING: A decision approving the proposed division is for land use purposes only. Due to septic, well, and drain field replacement areas, these parcels may not be able to support a dwelling. To be sure the subject property can accommodate the proposed use the applicant should contact the Building Inspection Division, (503) 588-5147.

This decision does not include approval of a building permit.

CONDITIONS: The following conditions must be met before a building permit can be obtained or the approved use established:

Prior to recording the final plat:

1. The applicant shall submit a final partition plat to the County Surveyor's Office (5155 Silverton Road NE; (503) 588-5036) and shall contain the notation that the survey is the result of Partition Case 19-006. Following plat approval it shall be recorded with the Marion County Clerk (plat instructions enclosed).
2. Prior to submitting the final partition plat, the applicant shall obtain an approved septic site evaluation from the Marion County Building Inspection Division on all undeveloped parcels. **The applicant is strongly encouraged to contact Building Inspection, (503) 588-5147, regarding septic sites before having the property surveyed. Septic site requirements may affect the proposed property line or lot locations.**
3. Prior to submitting the final partition plat, the applicant shall provide a static water level measurement for the existing well on the enclosed form.
4. The applicant is advised that a Partition Plant Service Report from a title company will be required upon submission of the final mylar to the County Surveyor.
5. Prior to recording the plat, the applicant shall provide evidence to the Planning Director that the access requirements provided by the Oregon Department of Transportation (ODOT) have been satisfied.
6. The resulting parcels shall significantly conform to the site plan submitted with the proposal. Minor variations are permitted upon review and approval by the Planning Director. All parcels shall be a minimum of two acres in size, prior to any right-of-way dedication.

Prior to issuance of building permits on the resulting parcels:

7. The partition plat shall be recorded.

8. Prior to issuance of building permits, the applicant shall provide a static water level measurement for any new wells intended as the water supply for the lot on the enclosed form.
9. The applicant shall sign and submit a Farm/Forest Declaratory Statement to the Planning Division (enclosed). This statement shall be recorded by the applicant with the Marion County Clerk after it has been reviewed and signed by the Planning Director.
10. Prior to issuance of building permits, the applicant shall sign and submit a Sensitive Groundwater Overlay Zone Declaratory Statement (enclosed) to the Planning Division for each resulting parcel. This statement shall be recorded by the applicant with the Marion County Clerk's Office after it has been reviewed and signed by the Planning Director.
11. Prior to issuance of building permits, the applicant shall sign and submit a Geological Hazardous Declaratory Statement (enclosed) to the Planning Division for each resulting parcel. This statement shall be recorded by the applicant with the Marion County Clerk's Office after it has been reviewed and signed by the Planning Director.

ADDITIONAL CONDITIONS: Once the approved use is established the following conditions must be continually satisfied:

12. After the final Partition plat has been recorded no alteration of property lines shall be permitted without first obtaining approval from the Planning Director.

OTHER PERMITS, FEES, AND RESTRICTIONS: This approval does not remove or affect covenants or restrictions imposed on the subject property by deed or other instrument. The proposed use may require permits and/or fees from other local, State or Federal agencies. This decision does not take the place of, or relieve the responsibility for, obtaining other permits or satisfying restrictions or conditions. It is recommended that the agencies mentioned in Finding #5 be contacted to identify restrictions or necessary permits. The applicant is advised of the following:

13. Prior to recording the plat all taxes due must be paid to the Marion County Tax Department (contact the Marion County Tax Department at 503-588-5215 for verification of payments).
14. The applicant should contact the Turner Fire District to obtain a copy of the District's Recommended Building Access and Premise Identification regulations and the Marion County Fire Code Applications Guide. Fire District access standards may be more restrictive than County standards.
15. The applicant should contact Jordan Wakem, ODOT District 3 Senior Permit Specialist (503-986-2666), to request information regarding access requirements provided by ODOT.
16. The applicant should contact Marion County Land Development and Engineering (503-584-7714) for additional Engineering Requirements, listed in Finding #5 below, that may be required.

APPEAL PROCEDURE: The Marion Zone Code provides that certain applications be considered first by the County Planning Director. If there is any doubt that the application conforms with adopted land use policies and regulations the Director must condition or deny the application. Anyone who disagrees with the Director's decision may request that the application be considered by a Marion County hearings officer after a public hearing. The applicant may also request reconsideration (one time only and a fee of \$200) on the basis of new information subject to signing an extension of the 150 day time limit for review of zoning applications.

A public hearing is held on appeals subject to the appellant paying a \$250.00 fee. Requests for reconsideration, or consideration by a hearings officer, must be in writing (form available from the Planning Division) and received, together with the appeal fee, in the Marion County Planning Division, 5155 Silverton Rd. NE, Salem, by 5:00 p.m. on **July 26, 2019**. If you have questions about this decision contact the Planning Division at (503) 588-5038 or at the office. This decision is effective **July 27, 2019** unless further consideration is requested.

FINDINGS AND CONCLUSIONS: Findings and conclusions on which the decision was based are noted below.

1. The property is designated Rural Residential in the Marion County Comprehensive Plan. The purpose of this designation and the corresponding AR (Acreage Residential) zone is to allow creation of acreage homesites at a density that maintains the character and environmental quality of rural residential areas. The property is in the Sensitive Groundwater Overlay Zone, which is addressed below. The property is also in a Geologically Hazardous Overlay; however, the geologic hazard on the property is relatively low and further review of the development site is not required. The recording of a Declaratory Statement is required before development and this can be made a condition of any approval.
2. The subject parcel is located on the east side of Squirrel Hill Rd SE approximately 820 feet northeast of its intersection with Sunnyside Rd SE. The 5.46 acre parcel identified as tax lot 200 contains an existing dwelling, accessory structures, well and septic system, all located on the south half of the property. The subject parcel was described by deed (Volume 351, Page 675) recorded on July 27, 1964, and is considered a legally created parcel for land use purposes.
3. Properties to the north, east and south are zoned AR (Acreage Residential) and developed with residential uses. Properties to the west are zoned SA (Special Agriculture) and developed with farm dwellings and agricultural uses.
4. The applicant proposes to divide the 5.46 acre parcel into two parcels of 2.00 acres and 3.46 acres each.
5. Public Works Land Development and Engineering Permits (LDEP) requested that the following requirements be included in the land use decision:

A. "As a prerequisite for future building permit issuance, Applicant shall provide evidence of ODOT access approval(s) from Squirrel Hill Road to the subject property. Squirrel Hill Road is under ODOT jurisdiction for maintenance and permitting. Evidence of access approval or acceptance by ODOT may be emailed to mhepburn@co.marion.or.us or a hard copy may be sent to:

Attn: Max Hepburn, LDEP
5155 Silverton Rd NE
Salem, OR 97305

B. The subject property is within the unincorporated area of Marion County and will be assessed Transportation & Parks System Development Charges (SDCs) upon application for building permits, per Marion County Ordinances #00-10R and #98-40R, respectively."

Oregon Department of Transportation (ODOT) requested that the following conditions be included in the land use decision:

- "The property owner shall remove the unpermitted approach at Milepoint 247.97.
- Proper easements shall be recorded to allow both parcels to use the permitted approach at Milepoint 247.96.
- The property owner shall obtain written confirmation from ODOT that the property frontage along Squirrel Hill Road is in compliance with the permit issued in 2011."

Marion County Surveyor commented: "Parcels ten acres and less must be surveyed. Per ORS 92.050, plat must be submitted for review. Checking fee and recording fees required. A current or updated title report must be submitted at the time of review. Title reports shall be no less than 15 days old at the time of approval of the plat by the Surveyor's Office, which may require additional updated reports."

Marion County Onsite Waste Water Specialist commented that site evaluation is required for the 2.0 acre lot and an existing system evaluation is required for the 3.46 acre lot.

Marion County Tax Assessor provided information regarding taxes on the subject property.

Turner Fire District commented on access standards.

6. Chapter 17.181 of the Marion County Code (MCC) establishes criteria for partitioning property in a Sensitive Groundwater Overlay zone (SGO). In order to meet criteria in Chapter 17.181 MCC, the applicant submitted a "Hydrogeology Report" which indicates there is a sustainable long-term supply of groundwater for the proposed development. Peer review of the Hydrogeology Report was positive. The County requires a Declaratory Statement be recorded with the property deed to notify the applicants and subsequent owners that there may be long term groundwater supply problems and that the County is not responsible for deepening or replacing wells. In addition, the applicant must meet the water level monitoring requirements in MCC 17.181.120. This includes a static water level measurement of all existing wells prior to recording the plat, and at least one static water level measurement prior to the issuance of a building permit in any new or existing wells intended as the water supply for the lot. This requirement is only for lots created by partitions recorded after January 1, 1998. This will be made a condition of approval.
7. There are no specific approval criteria for partitions in the AR zone. MCC 17.128.070 requires a minimum lot size of two acres. The two proposed new parcels will be at least two acres each and are consistent with this standard. In addition, the resulting undeveloped parcels, if they can obtain septic approval, are of sufficient size and shape to meet the development standards in the AR zone.
8. Staff recognizes the final partitioning may vary from the proposed plan due to topography or surveying. Minor variations are permitted; however, each resulting parcel shall be a minimum 2.0 acres prior to any required right-of-way dedication.
9. MCC 17.128.050 establishes special siting standards for dwellings near resource zones:
 - (a) *Any new dwelling in an AR zone shall be required to maintain a special setback from any parcel in the EFU, SA, FT, or TC zones when necessary to minimize potential conflicts with farm or forest uses. A 100-foot setback is the standard adjacent to farm use and 200 feet is the standard adjacent to forest uses.*
 - (b) *The owner of a proposed dwelling to be located within 500 feet of the EFU, SA, FT, TC zones shall be required to concur in the filing of the Declaratory Statement prescribed in the respective resource zone.*

The subject property is adjacent to parcels zoned SA to the west. However, these properties are not being specially assessed for farming and do not appear to be part of commercial farm operations. In addition, the subject property is narrow and imposing a special setback could force development closer to Interstate 5 to the east. For these reasons, Marion County Planning will not apply a special setback to the dwelling on the newly created parcel. Although the proposed partition is appropriate, the County requires that a Declaratory Statement be recorded with the property deed because the subject property is near a resource zone. This serves to notify the applicant and subsequent owners that there are farm or timber operations in the area. Any approval can be conditioned to meet this criterion.

10. Based on the above findings, the proposed partition complies with the applicable criteria and is, therefore **APPROVED**, subject to conditions.

Joe Fennimore
Director-Planning Division
