

PARTITION APPLICATION

Applications will no longer be accepted by email or mail.

All applications must be submitted in person.

Planning Division 5155 Silverton Rd. NE Salem OR 97305

Ph. (503) 588-5038 Email: Planning@co.marion.or.us

http://www.co.marion.or.us/PW/Planning

PROCEDURE:

- A. Once a complete application is received, the Planning Division will request comments from other County departments and affected agencies and special districts.
- B. Planning staff will review the application for compliance with the County Comprehensive Plan, County Zone Code, Statewide Planning Goals, and other applicable regulations. The Planning Division will approve or conditionally approve the application if it clearly complies with all land use laws and regulations.
- C. In approximately 30-45 days, notice of the decision is sent to the applicant and property owners within the notification area. Please note there is a 15-day appeal period. The appeal process and conditions, if approved, are explained in the Notice of Decision.

WARNING: Due to septic, well, and drain field replacement area requirements, a property is not always able to support a dwelling. Contact the Marion County Building Inspection Division for more information (503)-588-5147.

APPLICATION REQUIREMENTS:

<u>Do not double-side or spiral bind</u> any documents being submitted as our office will be scanning this information.

Incomplete applications will not be accepted. A complete application consists of the following that must be submitted:

- A. The attached application form filled out in ink.
- B. Copy of the officially recorded title transfer instrument (deed, warranty deed, or contract) that shows the legal description for the parent parcel. Available at the Clerk's Office, 2nd floor, 555 Court St. NE, Salem.
- C. Site Plan (see attached example) on a separate 8½ x 11 sheet of paper, drawn in ink, and show the location of the proposed use and its distance from other structures, property lines, roads and other features. The site plan must be reviewed and initialed as accepted by a Plans Examiner from the Marion County Building Inspection Division.
- D. A written statement explaining your reasons for the proposal and how your request conforms to Marion County land use policies and regulations of the applicable zone (copy available from Planning Division).
- E. If the partition includes the creation of a private roadway, the applicant must include 4 (four) proposed road names in the order of preference (see the attached application form).
- F. If the property is within a Sensitive Groundwater Overlay Zone, any study of water supply required by Chapter 17.181 of the Rural Zone Code shall accompany the application. If the Code requires peer review of the study, this must also be submitted with the Partition application. See the attached instructions, "Water Studies for Partition.
- G. Filing fee make check payable to Marion County.

<u>Please note:</u> Land development fees are charged by various offices within Marion County Public Works. Most requests are reviewed by a number of these offices and there <u>may</u> be several fees you will incur during the development process. Customers can mistakenly believe the first fee(s) they pay covers all costs for their development request. For example, if this partition application is approved you will be required to pay a Partition Plat Check fee to the County Surveyor (503-588-5155). Contact the Planning Division for more information.

NOTE: If all of the required information is not submitted with the application form, it will not be accepted. If the application is withdrawn after a file has been set up or fee deposited, the entire fee cannot be refunded. Partial refunds are at the discretion of the Planning Division based on the amount of staff work undertaken.

Water Studies for Partitions

Chapter 17.181 of the Marion County Rural Zone Code requires certain materials be submitted prior to submitting an application for a partition in the AR zone and within the boundaries of the Sensitive Groundwater Overlay Zone (SGO). A summary of the requirements is provided below.

SGO Zone

Chapter 17.181 of the Marion County Rural Zone Code contains the requirements of the Sensitive Groundwater Overlay Zone and establishes a "threshold lot size" of 5 (five) acres. If the size of the smallest lot in a proposed partition is larger, in acres, than the threshold lot size, the County will presume your development will not result in long-term over-use of the groundwater resource in the area of the property. If the minimum lot size of the partition is smaller than the threshold, a "Hydrogeology Review" must be prepared by a registered geologist and submitted to the County for peer review **prior to** submitting the application for the partition. The partition application will not be accepted without a peer reviewed Hydrogeology Review for the lots being proposed. Instructions for preparation of a Hydrogeology Review are provided separately. The Code limits who may prepare a Hydrogeology Review to registered geologists who are in good standing with the Oregon Board of Geologist Examiners.

Chapter 17.181 requires further study of the water supply if the Hydrogeology Review shows that the development may cause or worsen a groundwater supply problem in the area of the request. If this is the case, a "Hydrogeology Study" is required. Hydrogeology Studies are similar to Hydrogeology Reviews, except they are more in-depth and they include development of new data regarding the groundwater resource, rather than just a review of existing information. These studies must also be completed by a registered geologist.

Chapter 17.181 also requires that both Hydrogeology Reviews and Hydrogeology Studies be reviewed by another registered geologist (a process called "Peer Review"). The peer reviewer is a geologist of the County's choice. Chapter 17.181 explains the requirements for both a Hydrogeology Review and a Hydrogeology Study.

In addition to completing a study of groundwater conditions, Chapter 17.181 requires static water level measurements in all existing wells prior to recording the plat. Chapter 17.181 explains the procedures for collecting these measurements in section 17.181.120(A).

Fee: Please check the appropriate box:

Applicant Statement (required)

It is up to the applicant to fully explain your proposal and how it conforms to Marion County land use regulations. This is <u>your</u> opportunity to provide detailed information on the "who, what, where, when and why" that is specific to your proposal.

Describe the property as it exists now and after implementation of the proposal: topography, existing structures

There are specific criteria and regulations for each zone; these are available from the Planning Division. We strongly encourage you to obtain a copy of this information, review it, and then prepare your "applicant's statement".

These are a few items you should consider including (where applicable):

•	and their use, new or alteration of structures, etc. Describe surrounding properties: type of land use, scale of development, etc. and any impact your proposed use might have on these properties such as dust, noise, fumes or odors, traffic, etc. And, if so, what measures will you take to mitigate these impacts?

ROAD NAMING GUIDELINES

When submitting road names for approval, certain words have been used repeatedly over the years causing confusion for emergency services. As such, the following words, in any form, cannot be used for naming a new road in Marion County:

- EAST
- EASTERN (unless paired with another word)
- NORTH
- NORTHEAST or NORTHEASTERN
- NORTHWEST or NORTHWESTERN
- NORTHERN (unless paired with another word)
- NUMBERED NAME (spelled out or numeric)
- SOUTH
- SOUTHEAST or SOUTHEASTERN
- SOUTHWEST or SOUTHWESTERN
- SOUTHERN (unless paired with another word)
- WEST
- WESTERN (unless paired with another word)
- All private roads must end in either WAY, PLACE or LANE
- New roads cannot exceed two words, total, or 20 letters
- New road names <u>cannot</u> include or contain the following:
 - o initials for example, "HMS Sternwheeler"
 - o punctuation for example, "Smith-Jones Road"
 - o made-up words for example, "hoobosko"
 - o street type for example, "Dead End Lane NE"
- Additional review will be given to street names that are difficult to pronounce and/or spell, could be offensive, and/or have spelling variations.
- Other criteria such as the actual street type will also be considered on a case by case basis.

You must submit four (4) <u>separate names</u> for each road name needing approval. <u>Do not</u> submit four variations of the same name (Sparky Way, Sparky Lane, etc.) The following is an example of four separate names:

SPARKY LN BAMBI WY SEAHAWKS LN DUSTY PL

Note: All parcels that have direct access off the access easement will be required to change their address to the new road name and a new number will also be assigned.

INSTRUCTIONS FOR PREPARATION OF A SITE PLAN

Site plan must be <u>current</u>, drawn to scale, and <u>show all property lines</u>. If unable to draw to scale, property lines must still be shown noting actual dimensions or total acreage.

Failure to include all of the items listed below may delay the review necessary to obtain a permit
